MBAF RANKED AS TOP ACCOUNTING FIRM IN SOUTH FLORIDA BUSINESS  
JOURNAL 2009 ANNUAL LIST

Miami -Morrison, Brown, Argiz & Farra, LLP (MBAF), Florida's largest independent public accounting firm, has once again made the list of Top Accounting Firms, compiled and published by the South Florida Business Journal. This is the third year that MBAF has maintained its position in the number one spot.

MBAF ranked first on the list of "Top Accounting Firms by South Florida Billings" with \$55.3 million, an increase of more than \$10 million from the previous year's billings.

"Retaining our top spot on the list of the "Top Accounting Firms by South Florida Billings" is particularly important in a year marked by an economic downturn," said Tony Argiz, managing partner at MBAF. "MBAF's staff has remained committed to providing our clients with the highest possible level of service and counsel, and that has allowed us to not only meet, but exceed last year's billings, even in a struggling economy."

Additionally, MBAF ranked third among the "Top Accounting Firms by Number of CPAs," with 87 CPAs on staff in South Florida.

MBAF is ranked 43rd in the top accounting firms in the nation and is the largest independent CPA firm in the State. The firm has been ranked as "Best of the Best," the list of the top 25 performing firms in the country, for 13 years. MBAF provides tax and accounting, audit, technology consulting and litigation support and business valuation services to entrepreneurs, wealthy individuals, private and public corporations and legal practitioners across a broad range of industries.
